Subject Index

A

- Actinomycin D
 - combined with surgery and radiotherapy, for Wilms' tumor, 345
- American Cancer Society
 - policy statement on surgery for breast cancer, 341-343
 - Role of
 - in cancer control, 62-63
- Anticoagulation
 - for control of metastases, 38-41

B

- Basal cell carcinoma,
 - Pigmented and differential diagnosis of malignant melanoma, 167
- Benign pigmented nevi
 - and differential diagnosis of malignant melanoma, 161
- Biochemistry
 - as aid in cancer management
 - Oscar Bodansky's innovations in, Editorial on, 328
 - Interview, 275-280
 - Advances in, 275-280
 - Bulbrook study on breast cancer, 280
 - CEA test, 278-280
 - isoenzymes, 278
 - ubiquitous enzymes, 275-277
- Biography
 - Halsted, William (1852-1922), 94-95
 - Hertz, Roy (1909-), 242-243
 - Hodgkin, Thomas (1798-1866), 52-53
 - Martland, Harrison (1883-1954), 367
 - Müller, Johannes (1801-1858), 305-306
 - Papanicolaou, George (1883-1962), 171-173
- Bladder
 - Cancer of
 - diagnosis, 82
 - staging, 82-84
 - symptoms, 81-82
 - therapy, 84-90
- Blue nevus
 - and differential diagnosis of malignant melanoma, 164
- Breast
 - Cancer of
 - and pregnancy, 180
 - Radical mastectomy for,

- American Cancer Society's policy statement on, 341-343
 - Editorial on, 341
- Case against conservative surgery, 330-333, 339-340
- Case for conservative surgery, 334-338
- First description of, 96-98
- Screening for, 61

Cysts

- Age of patients with, 34
 - Differential diagnosis of, 34-35
 - Location of, 34
 - Multiple, 34
 - Needle aspiration of, 33-37
 - technique, 35-37
 - Size of, 34
 - Symptoms associated with, 33
- Burkitt's tumor
- Curability of, 345-346
 - with immunotherapy, 350

C

- Cancer patients
 - Management of
 - Decision making process in, 155-159
 - patient's role in choosing therapy [Editorial], 181
 - "Recipes" for [Editorial], 117
 - Life-threatening infections in, 138-150
- Cancer tests
 - biochemical studies, 275-280
 - Bulbrook study on breast cancer, 280
 - CEA test, 278-280
 - isoenzymes, 278
 - ubiquitous enzymes, 275-277
- CEA (carcinoembryonic antigen) test
 - Evaluation of, 278-280
- Cecum
 - Cancer of
 - Management of metastasis to liver in, 180
- Chemotherapy, Cancer
 - Cancers which respond to, 208
 - Burkitt's tumor, 345-346
 - choriocarcinoma, 344-345
 - Early report on curability of, 244-255
 - Hodgkin's disease, 346-347
 - leukemia, 347-349
 - testicular tumors, 345-346
 - Wilms' tumor, 345
- Combination,
 - for Hodgkin's disease, 346-347
 - for leukemia, 347-349
 - for testicular tumors, 345
- Combined with immunotherapy,
 - for Burkitt's tumor, 350, 351
 - for leukemia, 349-350, 351

- for Wilms' tumor, 345
- Combined with radiotherapy
 - for Stage III childhood Hodgkin's disease, 232-241
 - results, 238-240
 - staging, 232-233
 - treatment regimens, 233-238
- Current use of, 208-219
 - cell cycle specificity, 217
 - mechanisms of action at cellular level, 214-216
 - central dogma for, 214
 - drugs inhibiting protein synthesis, 214-215
 - drugs modifying DNA function, 214
 - drugs modifying nucleic acid biosynthesis, 214
 - mitotic inhibitors, 216
 - specific metabolic inhibitors, 216
 - steroid hormones, 216
 - nomograms for determining body surface area, 212-213
 - specific agents, 210-211
 - new agents, 209-211
 - structural formulae, 218-219
 - for recurrent colon cancer, 285
 - for soft tissue sarcomas, 268
- L-asparaginase
 - Use of, 220-227
 - clinical results, 225-226
 - immunosuppressive activities, 225
 - pharmacology, 221-223
 - resistance to, 223
 - toxicity, 223-225
- of skin cancer
 - Topical use of 5-fluorouracil for, 228-231
 - indications, 229
 - mode of action, 228-229
 - results, 231
 - side effects, 230-231
 - therapy, 229-230
- Progress in
 - Basis for, 202-207
 - future directions, 204-206
 - assay of tumor cells, 205-206
 - cell population kinetics, 204-205
 - pharmacokinetics, 205
 - prediction of drug effects, 206
 - past history, 203-204
 - present status, 202-203
- Choriocarcinoma
 - curability of
 - Early report on, 244-255
 - Reasons for, 344-345
- Classics in Oncology
 - Halsted's radical mastectomy, 96-98
 - Hertz's chemotherapy for choriocarcinoma, 244-255
 - [see Li's letter to the Editor, 375-376]
 - Hodgkin's disease, 54-60
 - Martland's osteogenic sarcoma in watch

- dial painters, 368-374
- Müller's structural characteristics of cancer, 307-312
- Papanicolaou's diagnostic test, 174-179
- Colon and rectum
 - Cancer of
 - Early detection of
 - by proctosigmoidoscopy
 - Teaching device for, 354-361
 - Preoperative administration of antibiotics for, 116
 - Recurrent,
 - Chemotherapy for, 285
 - polyps
 - Malignant transformation of,
 - Controversy regarding, 91-93, 313
- Compound nevus
 - and differential diagnosis of malignant melanoma, 162
- Conferences and Meetings
 - Midwest Cancer Conference, 72
- Correspondence
 - Letters to the Editor, 42-45, 313,
- Curability
 - of lymphoma and leukemia
 - Features suggesting, 344, 353
 - Burkitt's tumor, 345-346
 - Choriocarcinoma, 344-345
 - Hodgkin's disease, 346-347
 - immunotherapy trials, 349-351
 - leukemia, 347-349
 - testicular tumors, 345-346
 - Wilms' tumor, 345

D

- Decision making process
 - and cancer management, 155-159
 - Patient's role in [Editorial], 181
 - "Recipes" for [Editorial], 117
- Diagnosis, Cancer
 - of stomach cancer, 288-293
 - with biochemical tests, 275-280.
- Diet
 - and relationship to colon cancer, 151-154

E

- Editorials
 - A personal tribute to Sidney Farber, M.D. (1903-1973) [Mrs. Albert D. Lasker], 257
 - Cancer therapy—the patient's decision?, 181
 - Cookbook cancer therapy, 117

Forget the laboratory report?, 328
[on breast cancer surgery controversy],
341

The role of the private sector in cancer
control, 62-63

Endometrium

Cancer of

Control of, 99-105

adenomatous hyperplasia, 99-100

carcinoma in situ, 99-100

early diagnosis, 101-102

hormonal relations, 104

menopausal and high-risk patients,
100-101

problems of treatment, 102-104

F

Farber, Sidney, M.D.

Tribute to, 256-257

5-Fluorouracil

Topical use of

for skin cancer, 228-231

indications, 229

mode of action, 228-229

results, 231

side effects, 230-231

therapy, 229-230

H

Highlighting Cancer Chemotherapy Reports,
64-65, 118-119, 182-183, 258-259,
323-325, 385-386

Hodgkin's disease

Curability of, 346-347

First description of, 54-60

Splenectomy for, 61

Hutchinson's melanotic freckle

and differential diagnosis

of malignant melanoma, 168

I

Immunotherapy

for Burkitt's tumor, 350, 351

for leukemia, 349-350, 351

for localized malignant melanoma, 350

Infections, Life-threatening

in cancer patients, 138-150

predisposing factors, 138-140

prevention of, 145-147

therapy for, 147-150

types of infections, 140-145

Intradermal nevus

and differential diagnosis of malignant
melanoma, 163

Isoenzymes

use of

in cancer management, 278

L

L-asparaginase

as anticancer drug, 220-227

clinical results, 225-226

immunosuppressive activities, 225

pharmacology, 221-223

Resistance to, 223

toxicity, 223-225

Leukemia

Curability of, 347-349

Immunotherapy trials and, 349-351

Liver

Metastasis to

Management of, 180

Looking at Cancer, 68-69, 122-123, 189-192,
326-327, 383-384

Lymphoma

Curability of

Burkitt's tumor, 345-346

Immunotherapy for, 350

Hodgkin's disease, 346-347

M

Melanoma, malignant

Differential diagnosis of, 160-170

benign pigmented nevi, 161

blue nevus, 164

compound nevus, 162

Hutchinson's melanotic freckle, 168

intradermal nevus, 163

malignant melanoma, 169-170

pigmented basal cell carcinoma, 167

sclerosing hemangioma, 166

seborrheic keratosis, 165

Uveal

Enucleation for, 284

Metastasis in, 284

Metastases

Control of

by anticoagulation, 38-41

in uveal malignant melanoma, 284

N

National Cancer Program

Plan for, 46-51

- demonstration projects, 107-108
- funding for, 109
- objectives, 48
- planning sessions, 50-51
- purpose and scope, 47, 106-107
- structure, 49, 109-110
- Role of private sector in, 62-63, 109
- Neuroblastoma
 - Metastatic
 - Bone Scans for, 116

O

- Oral cavity
 - Cancer of
 - Etiology and pathogenesis of, 28-32
- Osteoradionecrosis
 - Prevention of, 61
 - in luminous watch dial painters, 367-374

P

- Pain, Chronic
 - Management of, 269-274
 - mild and potent analgesics, 270-271
 - peripheral nerve block, 272
 - subarachnoid block with neurolytic agents, 272-273
 - subarachnoid saline injection, 273
 - other procedures, 273-274
- Polyps
 - Malignant transformation of,
 - Controversy regarding, 91-93, 313
- Pregnancy
 - and breast cancer
 - Management of, 180
- Proctosigmoidoscopy
 - Tutoredscope for teaching technique of, 354-361
- Prostate
 - Cancer of
 - Hormonal palliation of, 284

Q

- Questions and Answers on Cancer, 61, 116, 180, 284-285, 377

R

- Radiotherapy
 - combined with actinomycin D,

- for soft tissue sarcomas, 268
- for Wilms' tumor, 345
- combined with chemotherapy,
 - for Stage III childhood Hodgkin's disease, 232-241
 - results, 238-240
 - staging, 232-233
 - treatment regimens, 233-238
- Reporting on Cancer Research, 66-67, 120-121, 184-186, 263-264, 320-322, 381-382

S

- Sarcoma
 - Soft tissue,
 - Management of, 266-268
 - chemotherapy, 268
 - classification, 267
 - diagnosis, 266-267
 - radiotherapy, 268
 - surgery, 267-268
 - Osteogenic,
 - in luminous watch dial painters,
 - First report of, 367-374
 - Vaccine trials for, 74-80
 - lysed cell vaccine, 76
 - whole cell vaccine, 76-77
- Scintiscan
 - for evaluation of thyroid nodules, 281-283
- Sclerosing hemangioma
 - and differential diagnosis of malignant melanoma, 166
- Seborrheic keratosis
 - and differential diagnosis of malignant melanoma, 165
- Skin
 - Cancer of
 - Therapy for,
 - with topical 5-Fluorouracil, 228-231
